

Open Landscape Academy meets Urban Heat Watch and Med_net Working Group in May, at the Agricultural University of Athens!

What makes an urban landscape democratic? And for Whom?

The Agricultural University of Athens is co-organizing with commonspace a week of intensive course and events about **landscape democracy, sustainability, and urban green** through the dialogue of two projects, from **24/5 to 31/5**.

Students from the Agricultural University of Athens, Athens School of Fine Arts and Universities abroad (Germany, Italy, United States of America, Hungary) will attend the intensive course.

The students will explore the area of **Elaionas, the Agricultural University of Athens, Akadimia Platonos** and **the Public Rabies and Disinfection Centre**. They will work on specific thematics, ideas and proposals towards the **landscape democracy and participation**.
