

Subject: Thank You Message for the Successful Voluntary Blood Donation Drive at the Agricultural University of Athens

Dear Members of the University Community,

The Agricultural University of Athens would like to express its sincere appreciation to all members of the University community who participated in the voluntary blood donation drive held on Thursday, 28 May 2026, at the University Conference Amphitheatre.

The participation of faculty members, teaching and laboratory staff, administrative personnel, and students demonstrated the strong spirit of solidarity and social responsibility that characterizes our academic community. Every unit of blood donated represents a precious gift of life for those in need.

We extend our heartfelt thanks to our regular volunteer blood donors for their continued commitment to this important cause, as well as to those who donated blood for the first time. We also wish to acknowledge the invaluable contribution of the medical and nursing staff, who ensured the safe and efficient conduct of the blood donation process, and the cleaning and security personnel, whose support contributed to the smooth implementation of the event.

Photographs from the event will be available **on the University website under the section “Campus Life” – “Volunteering”**. The same webpage also provides the contact details of the Voluntary Blood Donation Team for any further information.

We look forward to welcoming you to our next voluntary blood donation drive, which will take place in November 2026, and we hope to see even greater participation from the University community.

Thank you once again for your valuable contribution and for your commitment to supporting this life-saving initiative.

With appreciation,

Georgia Gounari
Coordinator, Voluntary Blood Donation Programme
Agricultural University of Athens
